Do You Open Your Mouth

Eake a young bird and gulp down what-ever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as

food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food cr as medicine. Dr. Pierce believe, they have a perfect right to insist upon each knowledge. So he publishes, broadcast and on each bottlewrapper, what his medicines are made of and verifies in the said. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues. more will their superior curative virtues

For the cure of woman's peculiar weak-nesses, irregularities and derangements, giving rise to frequent headaches, backiche, dragging-down pain or distress in ower abdominal or pelvic region, accommery abdominal or pelvic region, accompanied, ofttimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness. Dr. Pierce's Favorite Prescription is a most efficient remedy, it is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular, it is also a soothing and invigorating nervine and cures nervous exhaustion nervous prostration, neuralgia, hysteria, pasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of ell the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. She wanted him to come back An idea struck her and she came to the hospital and adopted a little boy. Then she wired to her husband, and told him a son had been born to them. He never suspected, but came right back on the next train. Over the cradle of that innocest youngster, the flesh and blood of a nameless father and mother, husband and wife effected a

> POPE MAY JOIN ORDER. Knights of Columbus, of Baltimore, are much interested in the report that Pope Pius X may join the order. A well-known member says that from advices received in Biltimore it was thought possible the pope might annonnce his position on the matter at a special audience he will give next sum. mer to members of the order and their families who are going to Rome on a pilgrimage.

They will be greeted on their arrival by Monsignor Kennedy, rector of the American College in Rome, and will also visit the summer retreat of the Ameridria f iends that I haved opened a wood | can students just outside of the city. > COMET WITH DOUBLE TAIL. Prof. A. E. Douglas, president of the University of Arizons, at Tucson, reports that comet "A 1910" is doubletailed. Wednesday night the second tail was noted branching off due south, with the other pointing straight upward. Prof. Douglas estimated the length of the double tail at 26 degrees, the longest since the comet of 1882.

A dispatch from Guadalajara, Mex , says: With the appearance of 'Comet A 1910' pilgrimages to the shrine of the Virgin of Talpa are being organized, many of the pilgrims making the journey for miles on their knees. Talpa is in the western section of the state of Jalisco and pilgrimages are made annually to the shrine. Advices from several points state that consternation reigns among the more superstitious class.

The observatory at Manila during the night observed a comet a few degress to the south of Venus, and apparently ap-

proaching the earth. It is supposed to be Winneckel's comet.

LOCKED IN A VAULT. Miss Marion Pyle, daughter of Charles S Pyle, vice president and cashier of the National Bank of Rising Sun, Md., was a prisoner in the vault of that institution for three hours Thursday night. During the closing of the rank Miss Marion had been tessing Miss Della Jenkins, the bank stenographer, and, unobserved took the latters's crat and slipped into the vault, where she se reted herself. 'Mr. Pyle continued putting away the books, and when finished locked the doors; retiring into his residence adjuning. The family missed the girl, but thought she had gone out for a walk. At tuper bour the family became anxious, and all were about to search for her when Mr. Pyle had occasion to enter his private office, where he heard screams inside the vault. Opening the doors he found his daugh er, none the worse from her frigh'.
